# DR. F. H. GREEN REPORTS STUDY OF JESUS' LIFE

"The principles of the Prince of Peace must be in the hearts of men if there is to be peace in our world," Dr. Francis Harvey Green, headmaster emeritus of Pennington School for Boys, declared Sunday evening at a Methodist-Presbyterian Sunday Evening Hour service.

Presenting the audience the results of a lawman's study of the life of Christ, Doctor Green, who is 87, described Christ as "the university at which mankind must learn" and "divine reality so far as we know it or need to know it."

Describing Christ as "the supreme character of the world," Dr. Green said: "He was not a doctor but He healed the lame, gave sight to the blind and raised the dead. He was not a lawyer but He knew the law. He was not a poet nor an author but without the Babe of Bethlehem we would have vastly less poetry. He was not an orator but the things He said hold primacy among the words of man. He was not an architect, only a Galilean carpenter, but He has influenced the architecture of the halls of time."

**Resume In January**

In the audience were many acquaintances of Dr. Green who had known him as head of the English department of Juniata college or as a member of the faculty of the West Chester State Teachers' college or as a lecturer during the years he headed the Pennington school. He greeted many of them after the service.

# "Remember The Future"

Pointing out that these sentences must always go together, the Rev. Mr. Berkheimer said, "It is a tragedy when a man receives the good and beautiful gifts from God and then goes his individual way feeling that they were a result of his own efforts."

"God has blessed each and every one of us with certain gifts. The departed brethren, who we are memorializing tonight, were not perfect but possessed certain qualities which certainly were a blessing to some individual, household or to the fraternal or business company. (Please Turn to Page 7)

# Find Survivors Of Lost Transport; Speed Rescue

By DOUGLAS LOVELACE

Johnston Island, Dec. 6 (AP)—An undetermined number of survivors from an Air Force C-54 transport, forced down in the mid-Pacific, was placed under constant air watch today while a rescue ship sped towards the scene.

The plane, with 37 Air Force personnel aboard, was ditched early Sunday 478 miles southwest of this tiny island and about 1,200 miles southwest of Honolulu.

The navy patrol craft PC1141 from Johnston Island was due to reach the survivors about 1 p. m. Johnston Island time (7 p. m., EST). The escort aircraft carrier Rendova and the navy freighter Zelma were due at the scene about the same time.

Flares were sighted late Sunday night by a B-17 search plane which dropped a 27-foot boat.

Officers directing the rescue operation said flares seen later indicated that at least some of the castaways had managed to board the boat.

A navy Privateer re-located the men early today and took up a vigil overhead. Relays of planes were to maintain this watch until the surface craft arrived.

The C-54 was one of five en route from Okinawa to Spokane, Wash., with ground personnel of the 98th Bomb Group. It was ditched at 4:06 a. m. (10:06 a. m., EST) Sunday after two engines failed.

Its radio, locked on the distress signal, continued to operate for eight minutes afterward. This indication that the plane did not sink immediately was the basis for hopes that a large number of the 30 passengers and crew of seven escaped into life rafts.

The C-54 was one of a flight of five en route from Okinawa to Spokane, Wash.

Col. Thomas L. Wiper, Johnston Island commander who flew near the scene, reported he had seen signals from the water after the pilot of an Air Force search plane had spotted the survivors and dropped a boat.

The Air Force pilot radioed first word that some survivors had been spotted.

# Chambers Testifies In Red Spy Probe Renewal

New York, Dec. 6 (AP)—Whittaker Chambers, self-styled former member of the Communist party in America, testified today before a special grand jury investigating subversive activities.

Alger Hiss, former State department official, awaited a call to appear before the panel.

The two men arrived within minutes of each other at the federal building and took places in the grand jury witness rooms. Shortly afterwards, Chambers, a Time magazine senior editor, testified. Hiss sat in the ante-room awaiting his call.

A subpoena calling Hiss before the jury was disclosed after the arrival of a House Un-American Activities committee investigator with copies of secret documents found on Chambers' Westminster, Md., farm last Thursday.

The committee is hanging on to another set of copies of the documents, for use when it starts its own spy hearings going again tomorrow — but perhaps behind closed doors.

The prints were made from microfilms obtained by subpoena from Chambers last week. At the time, Chambers had them cached in a hollow pumpkin on his Maryland farm.

# SANTA GIVEN WARM WELCOME SATURDAY NIGHT

Throngs of children and grownups jammed Center square Saturday night to welcome Santa Claus and witness the turning on of the Christmas lights in the square and the first blocks of Chambersburg, York, Baltimore and Carlisle streets.

Henry M. Garvin, president of the Chamber of Commerce, threw the main switch which lighted the strings of colored lights, promptly at 7 o'clock, and five minutes later children whooped with joy as Santa put in his appearance.

Santa arrived riding on one of the fire trucks, with a big searchlight playing on him as he circled Center square. When the fire truck stopped on the southwest side of the square hundreds of children gathered around the truck to see the red-coated patron saint, tell him what they wanted for Christmas, and receive from him a candy sucker.

# Play Xmas Music

The huge crowd which jammed the square and the sidewalks on both the square and Baltimore street had traffic almost tied up for several minutes.

As the strings of colored lights burst into glow, Christmas music flooded the area from a loudspeaker in the chamber offices in the Kadel building. Recorded music was played throughout the evening. The system was installed by Baker's Battery service.

Saturday night also marked the turning on of the Christmas lights in front of Christ Lutheran church.

# YOUTH HELD FOR SLAYING MOTHER

West Branch, Mich., Dec. 6 (AP)—A slight teen-ager, described by his teacher as a "perfect gentleman," was held without bond today on a charge of slaying his mother after an argument over selling Christmas cards.

The youth, William Lee Farley, 15, was charged with murder after Probate Judge Ethel Chapin waived jurisdiction over him. This enabled him to be tried as an adult.

He waived examination before Justice Arthur Babcock and was held for circuit court trial Dec. 21.

The dark-haired, bespectacled boy showed no signs of remorse as he appeared in court. However, sheriff's deputies said he paced the floor of his cell most of the night, in his first display of nervousness since he was arrested Saturday.

He told newsmen that he enjoyed playing cards in jail with other inmates, displaying little emotion before them.

# Trapped Driver "Uses His Head" In Escape

State Police Officer James Defley said all Walker's injuries were suffered only in his effort to get out of the automobile. A Spring Grove physician treated him for forehead lacerations which required six sutures.

His car rolled over when he failed to negotiate a curve in the highway. The machine came to rest on its left side in a cornfield about 75 feet from the shoulder and headed in the opposite direction.

# AG. EDITOR IS DELUGED WITH MANY QUERIES

Almost everything agricultural or horticultural comes under the heading of questions answered for readers of The Gettysburg Times by Dan P. Van Gorder, its agricultural editor.

Many Adams countians are interested in the growing of African violets, judging by the large number of letters received by Mr. Van Gorder seeking information on their culture. A coupon was published in The Times recently, offering this service, and many readers took advantage of it.

Another coupon offering advice on household insect control was clipped by many other readers, and Mr. Van Gorder answered each letter personally with suggestions for solution of the problems related in the letters. Free copies of the agricultural editor's up-to-date information on the control of water bugs, roaches, clothes moths and silverfish, were enclosed.

# Variety of Questions

Among other subjects on which Br. Van Gorder has provided valuable free information are "Daffodils, Indoors and Out"; "Rose Planting Made Easy"; "How to Build or Rebuild a Lawn"; "How to Grow Cyclamens" and "First Steps With Asparagus."

One reader of The Times wrote asking information on the control or elimination of rates, mice and moles. Others sought information on a wide variety of subjects.

The queries were not limited to any one section of the county, but came to Mr. Van Gorder from all parts, from East Berlin to Fairfield and from York Springs to Emmitsburg.

Questions will be promptly answered by writing to Dan P. Van Gorder, Box 1528, Washington 13, D. C.

## BULLETS DROP CAGE TILT TO CORNELL 43-40

A fast finish by the Gettysburg college basketball team proved futile as the Bullets opened their season Saturday night by dropping a 43-40 decision to Cornell university at Ithaca, N. Y.

Coach "Hen" Bream's outfit trailed throughout the contest but in the last minute and one-half spurted to reduce a nine-point lead held by the Big Red team.

Neither team was up to par and only periodically was good form flashed. The locals appeared hampered by the glass backboards and rigidity of the hoops which caused strong rebounds.

Cornell swept far out in front in the first half, holding a 25-14 advantage at half time.

**Princeton Next Foe**  
The Bullets' spurt in the final minutes found time too short to pull the contest from the fire.

Walt Harris and Bob O'Brien played steady games for the locals with Ross Sachs also turning in a nice performance.

The Bullets will next meet Princeton university at Princeton Wednesday evening. On Saturday the veteran Mt. St. Mary's outfit comes here for the Bullets' initial home game.

## Wrestling Clinic Draws Hundred Fans

Approximately 100 fans attended the wrestling clinic held in the Gettysburg college gymnasium Saturday afternoon and evening.

James A. Engel, Stamford, Conn., a former national inter-collegiate wrestling champion at Lehigh university, conducted the clinic and was assisted by several Lehigh grapplers.

## DUQUESNE GRID COACH RESIGNS

Pittsburgh, Dec. 6 (AP)—Pittsburgh's collegiate grid picture was the talk of the town today — and with plenty of reason.

1. Kass Kovalchek resigned Saturday after two years as Duquesne university's football coach and the rumor factories were operating at top speed trying to figure his successor.

2. Navy Capt. Tom Hamilton, who has been offered the job of athletic director at the University of Pittsburgh, intends to talk over his future with top navy brass in Washington today.

Kovalchek's resignation wasn't entirely unexpected. He's had a rough time trying to get the Dukes back into the big-time picture, the Hilltopper eleven having won only four games while losing 15 in 1947 and 1948. He still had a year to go on his contract when he tossed in the sponge.

The Very Rev. Francis P. Smith, the Duke president who frankly admits he wants the Dukes in the "big time," wouldn't comment on Kovalchek's possible successor.

One widespread rumor mentioned Hugh Devore, former Notre Dame coach and now tutor of the St. Bonaventure gridiron team. Others mentioned were Armand Nicolai, Monessen high school coach; Lou (Doc) Skinder, assistant Duquesne coach; Bill Kern, former Carnegie Tech and West Virginia coach, and Buff Donelli. Donelli, who steered the Dukes to their best seasons a few years ago, is now head coach at Boston university.

## Sport Shorts

Washington, Dec. 6 (AP)—A meeting here today may decide whether Captain Tom Hamilton stays on as director of athletics at the U. S. Naval academy, or takes a similar job with the University of Pittsburgh.

Hamilton came to town today for a talk with higher-ups in the Navy department, and an announcement may be forthcoming within a few days. But either way, Hamilton said, he is "satisfied now that my life is in athletics."

New York, Dec. 6 (AP)—It took a hurried special committee meeting to do it, but Mel Patton was credited today with a 9.3 seconds 100-yard dash, the world's fastest. After first rejecting the application, the amateur athletic union approved the Southern California speedster's mark as an American record yesterday shortly before closing its annual convention.

It's the fastest time ever turned in for the 100 under acceptable conditions. Patton, the Olympic 200-meter champion, turned in the mark last May 15 at Fresno, Calif.

Blakely, Pa., Dec. 6 (AP)—Blakely high school turned back Ashland high 19-6 Saturday to win its second straight eastern conference football crown in the Pennsylvania Interscholastic Athletic association. Peter Shopa scored all three touchdowns for the northern division titleholders.

Philadelphia, Dec. 6 (AP)—After three periods of scoreless football, Frankford and Southeast Catholic each pushed across last quarter touchdowns in their battle for the Philadelphia scholastic football championship that wound up in a 6-6 tie Saturday. Ernie Liberati of Frankford was chosen the standout player of the day.

## WOODCOCK AND SAVOLD TO MEET

London, Dec. 6 (AP)—Lee Savold, the ex-bartender from Minnesota, and Bruce Woodcock, the British heavyweight champion, fight a crucial 10 rounds tonight for a possible shot at Joe Louis and his world title.

Both gladiators seemed confident as they landed in town from training camps last night, and both were eager for a lucrative Louis bout. Promoters have indicated tonight's winner or the Joe Baksi-Ezzard Charles winner in New York Friday may be the Brown Bomber's next championship foe.

It was Baksi who broke Woodcock's jaw here in April, 1947. Bruce was more than a year getting well enough to resume training. His first outing — the short waltz against Lee Oma — tested nothing.

## BANQUET SPEAKER

Henry T. Bream, Gettysburg college coach, will be the speaker at the annual "football night" dinner of the Union Athletic association of Lansdowne. He will illustrate his talk with moving pictures of the 1948 season. Dwight Spaker, former Lansdowne high star, is expected to accompany Coach Bream to the affair.

## CHICAGO BEARS, CARDS TO DECIDE NATIONAL TITLE

By BEN PHILEGAR

New York, Dec. 6 (AP)—The defending champion Chicago Cardinals invade the crosstown lair of the Chicago Bears Sunday to settle the Western Division argument in the National Football League.

Neither club got more than a warmup yesterday. The Bears rolled over Detroit, 42 to 14, with Sid Luckman passing for three touchdowns, and the Cardinals crushed Green Bay, 42 to 7.

The All-America conference has a divisional title to settle Sunday, too, Baltimore's unpredictable Colts forced a special playoff for the eastern crown by beating Buffalo, 35 to 15. Now the Colts and Bills have to play again at Baltimore for the right to meet Cleveland's western champions.

## Cleveland Unbeaten

In other All-America action Cleveland hung up the first unbeaten season in the league's history by downing Brooklyn, 31 to 21, and San Francisco's Forty-Niners, who could beat everybody but Cleveland, defeated Los Angeles, 38 to 21.

Despite the loss, the Dons furnished the day's brightest individual star. Glenn Dobbs, the one-man gang from Tulsa, gained 405 yards on 27 completed passes and 431 yards altogether, both league records. He set a punting record of 49.1 yards for the season, and gained more yards for the year than anybody else, 2,942.

A passing record also fell in the National League. Charlie Conerly, the Mississippi rookie with the New York Giants, completed 36 of 53 passes against Pittsburgh, breaking an eight year old mark held by Davey O'Brien.

## Regular Season Ending

His work wasn't good enough to save the day for the Giants, however. The Steelers sprayed across three touchdowns in three minutes of the final quarter to seal the decision, 38 to 28.

Los Angeles smothered Washington, 41 to 13, as Bob Waterfield passed for four touchdowns, and Boston surprised Philadelphia, 37 to 14.

Yesterday's action wound up the regular season of the All-America conference. The National League closes shop Sunday, except for the championship playoff.

## China Ship Blast Toll Now At 6,000

Shanghai, Dec. 6 (AP)—A belated report disclosed that possibly 6,000 Chinese died in the explosion and sinking of a crowded evacuation ship off southern Manchuria early last month.

That would bring to 9,200 the number of Chinese estimated to have lost their lives in this and a similar disaster near Shanghai Friday night involving the overcrowded steamer Kiangya.

The Manchurian sinking would rank as probably the greatest single ship tragedy. Official sources in Nanjing made it known only yesterday. They said the boiler burst aboard an unidentified merchant ship evacuating troops of the government's 52nd Army from Yingkow. The explosion set off ammunition; all on board were killed.

The China Merchants Steam Navigation company said today 536 passengers and crew members were known to have been rescued from the Kiangya, which it operated. Nearly 4,000 refugees were believed to have been aboard. About 200 bodies have been recovered.

## REV. HICKEY "SERIOUS"

Ridgway, Pa., Dec. 6 (AP)—The Rev. George M. Hickey, 34-year old former state chaplain of the American Legion, was reported in "still serious" condition today at Ridgway hospital. Father Hickey, pastor of St. Leo's R. C. church here, suffered a possible fractured skull and other injuries in an auto collision Saturday.

## NOTRE DAME'S LONG RECORD IS MARRED BY TIE

By WILL GRIMSLEY

New York, Dec. 6 (AP)—Michigan might well be the only major college football team to escape the 1948 season with a perfect record.

The Wolverines have run through their regular string—their second straight year without defeat or tie—and have no post-season commitments. Their mark is safe.

But the other mighties continue to stub majestic toes. A week ago it was Army, tied 21-21 by hapless Navy. Saturday it was Notre Dame, stunned by a 14-14 draw with underdog Southern California.

The latest turn of events leaves only California and Clemson, besides Michigan, still with unspotted banners. Both go into Jan. 1 bowl games against foes likely to be favored.

The California Bears play rugged Northwestern in the Rose Bowl at Pasadena. Clemson meets Missouri, big seven conference runnerup, in the Gator Bowl at Jacksonville.

## Irish Near Defeat

The Irish, victorious in 21 straight games, put on a pulsating last-minute finish to gain a deadlock.

With Notre Dame behind 7-14, opportunist Bill Gay on the Irish returned a kickoff 87 yards to the Southern California 13. The South Benders moved from there to the one, with Emil Sitko bulging across. There were only 30 seconds left in the game when Steve Oracko kicked the vital extra point.

Clemson finished its regular campaign by humbling the Citadel 20-0, for No. 10 on a row and a clincher on the Southern Conference Championship. Two longtime Alabama feudists who were on the outs for 41 years finally got together again with Alabama routing Auburn, 55-0. Fred Wendt scored six touchdowns as Texas mines won over University of Hawaii in Honolulu, 49-6.

## Seven Bowl Games In

Seven bowl games were written into the books, with these results: Refrigerator Bowl—Evansville defeated unbeaten, untied Missouri Valley 13-7.

Glass Bowl—Toledo won a third time in a row, trouncing Oklahoma City, 27-14.

Fish Bowl—Hampton Institute defeated Wilberforce, 20-19.

Mo-Kan Bowl—Emporia Teachers' defeated Southwest Missouri, 34-20.

Orange Blossom Bowl—Virginia Union topped Florida A. and M., 39-18.

Potato Bowl—Santa Barbara whipped Willamette, 46-7.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Dec. 6 (AP)—Since television is one subject that will be somewhat hotter than the weather (Br-r-r-r) at this week's minor league baseball meetings in Minneapolis, these remarks from a big league executive with more than passing interest in the subject may be of some interest: "I think television gets as many patrons as it diverts." ## VILLANOVA, PITT AND TEMPLE WIN

(By The Associated Press)

Villanova, Pitt and Temple took long strides forward today on the road to national basketball fame. All three scored key victories Saturday in the first full week-end of cage activity in Pennsylvania in the 1948-49 season. St. Joseph's and Lafayette also scored important triumphs.

Villanova, figured as one of the top half-dozen teams in the state, proved it belongs with the best by licking Rhode Island State, 75 to 68 at Kingston, R. I.

Pitt humbled Penn State's defense-minded five, 40-33, in the Panthers' opener. The Nittany Lions' defense proved troublesome to the highly-regarded Panthers during the first three periods, but Pitt went on a 20-point spree in the final period to sew up the decision.

The Owls of Temple coasted to an easy 67-49 triumph over the University of Maryland in Convention Hall's first doubleheader of the season at Philadelphia. In the other half of the double bill, St. Joseph's and Tennessee put on a nip-and-tuck battle until five minutes before the final whistle when the Hawks put together 15 straight points to win going away.

At Albany, N. Y., Lafayette found Siena college a tough customer for its season opener, but put on a last half spurt that gave the Leopards a 50-48 victory. Washington and Jefferson breezed past St. Vincent in the Presidents' first game of the season, scoring 58-35. Frankie Keath, top scorer in Pennsylvania last year, tallied 29 points to lead Elizabethtown to a 50-46 triumph over Kutztown Teachers. Gettysburg threw a scare into favored Cornell before bowing to the Big Red at Ithaca, N. Y., 43 to 40.

Salt Bowl—Northwestern Oklahoma shut out Trinidad Colo., J. C., 34-0.

would eliminate television entirely, then permission should not be given. This is impossible since there will be television whether the stations televise baseball or something else. All of us know baseball is the best attraction video can offer, but I believe television people are enterprising enough to substitute shows interesting enough to hold plenty of attention. Baseball would lose both the people diverted to their television sets and also would lose the promotional value of constant advertising of their product."

In addition to Satchel Paige and Larry Doby, the Indians may have a third negro player on their spring training roster, and if you can believe all you hear, he's quite a guy. The player, third baseman, Oreste Minoso, left the New York Cubans for the Dayton (Ohio) Indians, at

the end of the 1948 campaign. In eleven games he hit .475, knocked two homers and once stole second, third and home in one game. In the Central league playoffs, Oreste hit better than 300 and three homers. One observer says he makes Doby and Dale Mitchell look as if they're set in concrete. And Dayton Manager Joe Vosmik remarks: "If there was a league higher than the Majors, Minoso would be ready for that."

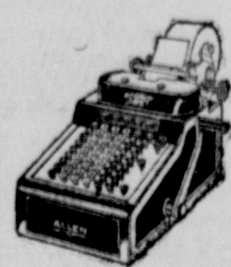

Marcus Freiburger, six-foot-eleven sophomore on Bruce Drake's Oklahoma U. basketball squad, has three older brothers who also played basketball. They all were little guys, only 6-8 . . . Before each season, George (Papa Bear) Halas, tells his rookies: "You All-Americans have just as good a chance to make this team as the other players."

## Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times ONE HUNDRED YEARS AGO

**Supposed Murderer Arrested:** A German named Frederick Smith, residing in Reading, was taken up lately and confined in the Reading jail, on the charge of robbing the boat of the stage on the Lancaster Road. This individual, it appears, lived in the neighborhood of Ardentown, in this county, three or four years ago—part of the time with Mr. Foster; and it is said, was seen near the house of Mr. F. on the night the murder was committed. This latter fact led to a pursuit of him by Mr. John Hoover, who had him arrested at Reading on Tuesday, on the charge of murder.

**Married:** On Thursday, at Cone-wago Chapel, by the Rev. Mr. Enders, Mr. Sylvester Pink, to Miss Rosanna M'Sherry—both of Littlestown.

On Thursday, by the Rev. C. A. Hay, Mr. William Unger to Miss Louisa Willet—both of Germany township.

## Today's Talk

### DEFEATS

Defeats sensitize us and tend to make us humble. It would take a big book to hold the names of all those great leaders of the world who once were failures. Many a defeat today is but the stepping stone to a triumph on the morrow! It has happened again and again.

The first sixteen books that George Meredith wrote were failures. Then came his famous book "Diana of the Crossways." And it was 19 years before a second edition of his "Richard Feverel" appeared. The late W. Robertson Nicoll called this book a "marvelous love-story, with the shine of the morning on its dewy pages."

I know a woman writer who sent her first novel to some 50 editors and had it returned by them all. Then she started all over again with the first one, and he accepted her book! He would have saved a great deal of time had he accepted at first. But it was those defeats that spurred this writer on. She knew she had something—and it was later proved. She has since had dozens of successful novels.

Defeats harden us and keep us close to realities. If we won all the time we would get careless and our usefulness would dwindle. A defeat now and then, in both private and public life, is a good thing.

Life itself is a battle. Many of our individual days are personal defeats, but if we hold to our purposes, refuse to be permanently defeated, and keep our faith, nothing can keep us defeated. Each defeat will be but a good lesson in how to climb just a little higher. Many an apparent defeat has been changed into a triumph. We alone are responsible for our defeats—if they come, and we alone can turn them into winnings.

Our greatest men and women are not all elected to their high positions. Our ablest men do not go to our legislative halls. They stay at home and often fight their battles single handed, unafraid of defeat. Often they do not more than edit a newspaper, keeping in the background, but widely influential. Or they write a book that starts thousands to thinking.

Tomorrow Mr. Adams will write on the subject: "Carpenter, Jr."

For weeks 'twas talked over, I needn't explain:

A child to go riding alone on a train!  
A journey to Buffalo! It would be fun.

But always the questioning:  
"Should it be done?"

To the aunt who would meet her,  
long telephone calls.  
Now Ellen Elizabeth's been to the Falls.

Excitement past telling! the suitcase to pack  
With care to make certain that nothing she'd lack.

An eight-year-old traveler,  
lovely to see;

The porter who promised that safe she would be.

A journey that never monotony palls.

Now Ellen Elizabeth's been to the Falls!

Well here's to the fellow whoever is he,  
Whose bride in the future she'll grow up to be.

When he asks for her choice of a honeymoon trip  
By motor, by train, aeroplane or by ship.

I'm telling him now, and I hope he recalls,  
That Ellen Elizabeth's been to the Falls!

## CAPITAL BUSY PREPARING FOR INAUGURATION

Washington, Dec. 6 (P)—Getting ready for President Truman's inauguration January 20 has Washington hopping around like a man with firecrackers in his ears.

Those running the show want to make it the biggest inauguration in American history. They probably will, unless it rains or snows.

They figure about 750,000 people will see the inauguration itself or the parade that follows, either from grandstand seats or standing on the curb. The cost probably will hit around \$300,000.

### First To Be Televised

Other millions of people around the country will follow it on their radios or over television. It will be the first inauguration ever televised. And the whole place will swarm with newspaper reporters.

Around noon on January 20 Mr. Truman will be sworn in for his first full term in office by Chief Justice Vinson of the U.S. Supreme court. The President's term begins that day.

Then Senator Alben W. Barkley of Kentucky will take the oath as vice president. It's not known at this point who'll administer the oath to him.

### Seats For Diplomats

All this will take place on the east side of the capitol, where for months carpenters have been building about 14,000 wooden seats in the open air, facing the building.

The people who get those seats—free—will be diplomats, members of the Supreme court, congressmen and senators, members of the President's cabinet, and others, all by invitation.

After he takes the oath, the President will deliver his inaugural address. Then he and the vice president will scoot off to lunch.

So much for what happens at the capitol. All the arrangements there are in the hands of a special congressional committee. Congress this year voted money to take care of those expenses.

### Huge Parade Follows

Then an inaugural committee—not connected with Congress—takes over. A parade will start at the capitol and wind down through Pennsylvania avenue until it passes the White House a mile away.

This parade will last two or three hours and will be full of soldiers, sailors, marines, West Point and Annapolis cadets, army bands, navy bands, college bands, the governors of states, and floats representing the various states.

All this will pass the massed thousands standing along the line of march and other thousands who have been able to buy seats in the wooden grandstands built along the way.

In front of the White House, in a block-long grandstand, President Truman will review the parade, surrounded by friends and guests.

The business people of Washington are putting up the money to build the stands along the line of march. Tickets for seats in them cost from \$2 to \$10 or more.

If you're thinking of coming here and want such a seat, send your application to the Inaugural committee, room 166, Tariff building, 7th and E streets, northwest, Washington, D. C.

There'll be a big inaugural ball on the night of January 20. This is by invitation. Mr. Truman probably will be at the ball.

## SAYS PA. TAXES NEED REVISING

Harrisburg, Dec. 6 (P)—A drastic overhauling of Pennsylvania's 1947 local tax is needed to correct present "destructive" features, says a banking expert.

The law in its present form has resulted in "multiple taxation on some items of property," Louis W. Van Meter, vice president of the Provident Trust company of Philadelphia, told a banker's meeting here.

The local tax law permits communities and school districts to impose taxes on anything the state is not already taxing.

Taking advantage of the broad base of the act, hundreds of Pennsylvania municipalities have levied taxes on scores of items. The law accordingly, has aroused a storm of controversy, both favorable and unfavorable, throughout the state.

The law, passed as a keystone in Gov. James H. Duff's program to enable local governments to support themselves, is slated to be one of the big issues before the 1949 legislature.

Van Meter told a mid-winter meeting of the Pennsylvania Bankers' association that personal property taxes levied under the new law have hit hardest small trust funds. He said the "vast majority" of such funds managed by Pennsylvania banks are for \$10,000 or less.

### BUSES TO RUN AGAIN

Williamsport, Pa., Dec. 6 (P)—All bus service on the 1,300 miles of Edwards Lakes-to-Seas bus system will be resumed tomorrow at 6 a. m. for the first time in 22 days, J. Wesley Edwards, company president, said last night. Edwards said he had been formally notified by Oscar R. Nepper, president of the local AFL

## Higher Salaries For Teachers Supported

Allentown, Pa., Dec. 6 (P)—School directors of seven counties would require all motor vehicles to come to a full stop when coming upon school buses which are discharging or loading passengers.

Region eight of the Pennsylvania School Directors Association passed a resolution to that effect at a meeting at Allentown Saturday night.

The directors also endorsed the Pennsylvania State Education Association's plan for liberalizing teachers' retirement benefits. So did the executive council of the Public School Employees Association, which met here at the same time but in a separate session.

The PSEA will lay the plan before the state Legislature when it convenes next year. Under the plan, voluntary retirement is proposed at 62 years or after 35 years of service. The school directors endorsed also an increase of \$400 for teachers. This would raise the minimum annual salary to \$2,400.

## NAB JANITOR IN DOUBLE MURDER

Colorado Springs, Colo., Dec. 6 (P)—A janitor, arrested in a Santa Claus workshop, will be returned to Pennsylvania to face charges of murdering two elderly men.

Denver FBI Agent Russell P. Kramer reported the man, John W. Givens, 51, said he will not fight extradition.

He was arrested Saturday on a tip from Los Angeles by a man who saw Givens' photograph on a post-office bulletin board. He has been working as a janitor for the Salvation Army and helping out on Christmas preparations.

Police Chief I. B. Bruce said Givens, an itinerant, admitted slaying Joseph Neugebauer, 72, and Matthew Magana, 70, farms hands working with him at the Mt. Gallitzin academy at Baden, Pa. Givens told Bruce the killings followed an argument over "who was boss."

Bruce said Givens was a "quiet, well behaved janitor" during the months since he came here from Sacramento, Calif. FBI agents said he had served terms in both San Quentin prison in California and in the Ohio state penitentiary for robbery.

Givens was quoted by Bruce as saying, "it's all over and I feel relieved."

## BOTH CAMPS MANEUVER FOR TIME IN BERLIN

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

Colonel Frank Howley, commandant in the American sector of Berlin, pointed out to a press conference that for two years the Russians systematically have broken all the solemn agreements reached by the four occupation authorities, and then he propounded this one:

"Is it really worth all the effort to try to get additional agreements with them?"

The colonel didn't attempt to answer his own question specifically, and I take it he was doing a bit of thinking out loud along a line which is running through many minds right now. What good is achieved by trying to make agreements which we know the Russians will break if and when it serves their purpose? Why should we keep striving when the Bolsheviks have made it plain that they are out to Communize the world and will let nothing stand in their way?

### Old Rules Out

Well, we can say at once that such tactics would be love's labor lost if their sole value lay in the agreements achieved. However, it isn't the intrinsic value of the pacts for which the Democracies are aiming primarily. They are playing for time.

This cold war in which we are engaged in a wordy conflict of attrition in which both sides are avoiding a hot war. All the old rules of diplomacy have been tossed out the window, and the opponents are improvising from day to day.

The Democracies want time for the economic recovery of Western Europe so that it will be strong enough to stand up to Russia in event of a hot war.

The Muscovites, for their part, are letting time work for them as they try to extend their conquests by all strong-arm methods short of actual gun fire. They want to give their fifth-column a chance to operate in anti-Communist countries. They are anxious to get full play in the revolutions which they are fostering in China and southeast Asia. And they are striving to rehabilitate their own war-damaged country and prepare new military equipment—including atomic bombs.

So long as the Russians and the Western powers are talking they aren't shooting at each other. Thus in this sense continuance of negotiations may be a good thing, even though agreements will be broken. That is, they may be a good thing so long as they aren't mistaken for appeasement.

### SOLVING GERANIUM PROBLEMS

There is no justification in the common excuse offered when most indoor plants fail that "I have no luck with plants." This is perhaps doubly true with geraniums because growers usually deny themselves the full beauties of this favorite plant by pursuing cultural practices actually detrimental to geranium vigor and well being. In other words, most problems with this finer indoor ornamental are actually invited.

It is a common experience to see geranium plants tall and spindly, with unsightly, barren stems and puny crowns devoid of blooms or

even attractive foliage. This condition is the sum and total of geranium failure. It represents penalties for a few basic errors which all growers may easily avoid and for which avoidance they are usually rewarded with low, bushy plants having attractive form and foliage and crowned with prodigious displays of flowers.

Tall, distorted geranium plants produce no blooms. They are the results of six faulty practices in general, which are here stated briefly and discussed in a few terse rules. They are: (1) Failure to grow new plants each year; (2) Neglect to pinch back shoots to promote bushy, compact tops; (3) Too large pots; (4) Lack of sufficient sunshine; (5) Over-watering, and (6) Exposure to fumes from gas stoves.

These mistakes or neglects are not difficult to clarify into a simple code of rules by which growers may attain the full measure of beauty and vigor which geraniums offer.

This plant is easy to propagate from cuttings. If these are started in the spring or early summer and the pots plunged in an outdoor bed after growth is well under way, they should be in excellent form by the time they are brought indoors in early September. Old plants kept over should be pruned back severely in the spring to promote low, compact tops again. It is from these prunings that a liberal supply of cuttings is obtained.

Whether plants are started from cuttings or obtained from pruning back old plants, they should not be allowed to develop tall tops. After they are brought indoors the longer

shoots should be pinched back, thereby stimulating the formation of numerous laterals and keeping the top low and round. This is the major key to beautiful geraniums which produce numerous and high quality blooms.

This plant should be kept slightly pot bound after it nears blooming size. To afford it too much room means that roots will spread and produce considerable foliage at the expense of flowers.

There can be no compromise with shade. Geraniums prefer the south, east and west windows in order named. Sunshine is a "must" in attaining success with this old favorite.

Water-logged soils lead to foliage losses and ultimate failure. Geraniums prefer to be kept slightly on the dry side. Or in other terms, the daily sprinkling habit is taboo.

Surveys indicate that fumes from gas stoves, particularly where gas is used for cooking, seriously injure this plant. Around 90 per cent of geranium failures occur in houses where gas is used for heating or cooking.

The editor invites readers to write him to ask all the questions they desire on this and other indoor

plants. And a copy of our simplified geranium growing instructions will be furnished free on request. Merely enclose a self-addressed stamped envelope or a 3-cent stamp when writing for information or a copy of this cultural guide.

## Chapter 1

## SANTA AND THE SNOW MAN

Once upon a time there lived a little boy named Danny. I guess he was the most lonesome boy in the whole world because—well, because of a lot of reasons.

For one thing, he had no home. And he had no father or mother or brothers or sisters.

But that wasn't the worst of it. No. The hardest thing of all was that he had a twisted leg.

His leg didn't hurt him, you understand, but because it was crooked he couldn't run like other boys and girls. He couldn't kick a football or skate or ride a bicycle or play tag.

The other children, not knowing how truly lonely he was, laughed at him and teased him and never even tried to be friends with him. So you can see he really didn't have a very happy time.

Well, one night in the wintertime—in December, to be exact—there was a big, big snow storm. The next morning there was such a heap of snow on the ground that the schools didn't open. "Let the children play today," said the teachers. "After all, it isn't often we have so much snow."

So all the boys and girls got out their sleds and their skis and their snow shoes and spent a glorious day playing together in the snow.

All except Danny who couldn't sled or ski or walk on snow shoes because the other children laughed at him and chased him away.

Most of the day he stood behind a birch tree and peeped at the others having fun. But along about mid-afternoon he got an idea.

"I can make a snow man!" he thought. "No one can stop me from doing that and I certainly don't need two good legs to do it."

He set to work right there. First he rolled a great round body. When it was good and solid and steady on the ground he made two fine feet and fitted them under the body.

He rolled two wonderfully round arms with perfect hands and joined them to the body. Then he made the head and set it carefully on top of the shoulders. He got some coals and some twigs and with these he made the nose and eyes and mouth.

Oh, it was a lovely face—fat and smiling with bulging cheeks and crinkly lines all around the mouth and eyes!

"Gee," whispered Danny as he stood off and looked at his snow man. "You look real—like an honest-to-goodness real man!"

He was so pleased he wanted the other kids to see his snow man. They wouldn't believe I could make such a thing, he thought. They might even ask me to show them how to do it.

He started off to call the boys who were sledding on a nearby hill. But when the boys saw him they started throwing snow balls at him—hard ones, mixed with ice.

Danny wasn't a coward but he had learned long ago it was pretty useless to fight a whole crowd of kids when one of your legs is crooked and no good to you at all. So he ran back to his snow man

"IF YOU WERE REAL I'D HAVE ONE FRIEND, ANYWAY."

and sat down on the ground with one arm around the snow man.

"Oh, I wish you really were real!" he said. "If you were I'd have one friend, anyway."

Then he shut his eyes and he must have gone to sleep because he had a dream. Maybe it was his imagination or maybe it was real. I just don't know. But, anyway,

while he sat there with his eyes closed, the sun came out and shone in a steady beam on his snow man.

Suddenly, a lovely fairy, carrying an enormous package, slid down that sun beam and landed at the snow man's feet.

And the fairy said, "Danny, I am going to make your snow man real!" Tomorrow: Danny Gets a Friend.

## MADAME CHIANG ASKING BILLION A YEAR FOR CHINA

Washington, Dec. 6 (AP)—American military aid to China is running somewhat under one-third of that to Greece and Turkey.

This became known today with estimates from government sources that fighting equipment valued at about \$63,000,000 has been delivered to Chiang Kai-shek's hard-pressed armies in the last year and a half.

During roughly the same period, the United States shipped arms and other military supplies worth \$230,000,000 to Greece and Turkey under the Truman doctrine pledging to keep those nations out of Communist clutches.

How successful China may be in its desperate efforts to narrow the ratio of American aid to the two

Communist-menaced areas remains to be seen.

## To See President

Those efforts currently are being pressed by Mme. Chiang, wife of the generalissimo, who flew here last Wednesday. China's first lady is due to meet President and Mrs. Truman early this week to voice her informal appeal for greater help from this country.

Chinese authorities here say the program she is proposing would cost the United States about \$1,000,000,000 a year over the next three years.

That would be a big jump from the \$400,000,000 Congress voted for China earlier this year and would far outstrip the two-year, \$625,000,000 Greek-Turkish program. Of this year's China fund, \$275,000,000 was earmarked for economic assistance and \$125,000,000 was made available for arms help.

While most of this military fund has been spent, actual deliveries have lagged. Chinese authorities say

they have received about \$25,000,000 worth. Presumably this includes some naval equipment, plus \$16,800,000 in army equipment started on its way to China since October 1. Two major shipments, one of 5,000 tons several weeks ago and another of about 4,000 tons on December 1, were composed of small arms ammunition.

## Acts AT ONCE to relieve NIGHT CROUPY COUGHING (CAUSED BY COLDS)

For years thousands of Doctors prescribed PERTUSSIN. It acts at once not only to relieve coughing due to colds but also 'loosens up' phlegm and makes it easier to raise. PERTUSSIN is safe for both old and young. Pleasant tasting. **>PERTUSSIN<**

CHIANG FACES GRAVE CRISIS IN NANKING BATTLE

By DEWITT MACKENZIE (AP Foreign Affairs Analyst)

We seem to have reached the climax of one of the great dramas of our time—the life-or-death stand by Chiang Kai-shek before the gates of his capital in the path of the attacking Bolshevik armies.

The generalissimo's forces are heavily outnumbered—something like two to one—by the Chinese Communists, who are receiving material aid from Russia. Authoritative Chinese quarters say that the rebel ranks are swollen by Japanese prisoners of war and Mongolians provided by Moscow.

The capital city of Nanking, on the bank of the mighty Yangtze, is tense. Despite official denials that government headquarters are to be moved further south, preparations to meet such an emergency are going forward. However, Nationalist forces are being deployed to meet the expected Red onslaught from the north.

Could Be Decisive Nanking authorities have been speaking of the recent fierce fighting in this theater as decisive. One uses that term guardedly for it connotes a finality, but the battle could be decisive.

If so, it might mark the beginning of a new epoch in China's long history. It could spell the end of the present Nationalist regime and the inauguration of a Red government in Nanking. Certainly it doesn't call for any stretch of imagination to foresee control of all northern China by the Communists, with the Nationalists hanging on in the south by their teeth.

Should such a division of the country come about, we might well see the Communists renew their demand for a coalition government—Nationalists and Communists. That is common Communist practice in all countries which they are in process of trying to Sovietize. The coalition is the entering wedge which eventually gives the Reds complete control. We've seen that happen in numerous European countries.

Coalition Is Folly Obviously any coalition with Communists is utter folly. Communism not only has nothing in common with any other ism, but is out to destroy everything which clashes with Bolshevism. The Reds will participate in a government coalition—or a trade union coalition—only until they can wreck the organization and take over themselves.

As this great battle of Nanking boils up, Madame Chiang Kai-shek is in Washington as the generalissimo's envoy extraordinary to ask for aid. Well, so far as the present offensive is concerned there would seem to be nothing America, or anybody else, could do in time. The battle is virtually joined already. Chiang will have to stand or fall by what he can muster from his present resources.

Game Protector Nabs Violators

Pottsville, Pa., Dec. 6 (AP)—Game Warden Harry W. Defina of Schuylkill county decided a good way to check hunters for possible game law violations was to throw up a road block on Route 29 between Tamaqua and Allentown.

That's just what Defina did Saturday night with the aid of Fish Warden Anthony Lech and five deputies. The road block resulted in eight arrests and a like number of fines.

John E. Reegan, Philadelphia, was fined \$100 for having in his possession a spike buck, described by Defina as a deer with only one point per horn, whereas the 1948 regulation prescribes at least two. Defina said Reegan had cut off his deer's head in an effort to avoid detection. Caught on similar spike buck violations was James Stinson, Woodbury Heights, N. J. Defina said Stinson admitted he had a spike buck and therefore was fined only \$25.

WEST BERLIN VOTES SHARP 'RED' REBUKE

By DANIEL DE LUCE Berlin, Dec. 6 (AP)—Communism received a stinging rebuke yesterday from the citizens of blockaded western Berlin. Nearly complete returns from the city election showed a sweeping victory for anti-Russian Socialists.

With all but 33 of the city's 1,572 western precincts reporting, the German election bureau announced the following results:

More than 84 per cent of the electorate in western Berlin voted. The count has reached 1,340,262 ballots.

Social Democrats (Socialists) 839,488 votes—64.4 per cent.

Christian Democrats (Conservative pro-Church) 253,925 votes—19.5 per cent.

Liberal Democrats (Conservative) 210,252 votes—16.1 per cent.

Vote Against Russians

Anti-Communist leaders regarded every ballot as a vote against Russian occupation policies.

The 84 per cent figure of eligible voters who cast ballots was doubly significant. Even if all non-voters were Communists—which is not likely—they could not have polled more than 13.6 per cent of the total. In 1946 the Communists polled 19 per cent of the vote.

The Soviet military command had forbidden the election in its sector of Berlin. The Russians set up a "rump" Communist government of their own in the city last week. German Communists had refused to be on the ballot and threatened revenge against all who dared vote.

Social Democrats Gain

German leaders of all three anti-Soviet parties united in calling the election a plebiscite for freedom

week's hunting trip to Camp Carter, Potter county. Mr. Bankert bagged a three-point buck. Mr. Crouse, a seven-point buck and Mr. Doyle, a three-point buck.

Items of business on the agenda for the December meeting of the Alpha Fire company No. 1, to be held in the fire hall, Tuesday, at 7:30 p. m. include nomination of officers and a decision as to whether or not uniforms will be purchased for a Uniform Rank. Samples of uniforms as well as price lists are available for the meeting.

There will be a classification talk at the weekly meeting of the Littlestown Rotary club to be held Tuesday at 6:15 p. m. in Schottie's banquet hall. The vocational service committee consisting of George P. Smith, chairman, Arthur E. Bair, Lloyd L. Stavelly and Frank J. Krocak will be in charge.

There will be a reorganization of the four individual school boards in the Littlestown Jointure, Tuesday at 7 p. m. in the Littlestown high school followed by the monthly business of each board.

versus Kremlin-style dictatorship. The Communists called it an election for "chaos and famine." The Social Democrats who demand Socialization of Germany along the lines followed by the Labor party in England, scored possibly the greatest victory in the 80-year history of their party.

They emerged with an absolute majority which gives them working control of the next city and borough governments under western Allied auspices.

The Socialist triumph assured the selection of Ernst Reuter, outspoken anti-Red, as Berlin's lord mayor.

Reuter was vetoed for mayor by the Russian military commander in 1947.

Orderly Voting

Reuter said "the result surpasses all my hopes and expectations. Berlin has won a great success for Germany and the world."

Despite strongarm tactics and fist fights during the political campaign, the election itself took place with relative calm.

No mass invasions by Red gangs were made into the western sectors. Some 10,000 German police main-

ions, and these qualities are those which we seek to remember and emulate.

"It would behoove us in honoring them not simply to remember the past but also to remember the present and future. Words of the text contain God's promise to Abraham when he asked him to leave his home country and to go to a land which he knew not. As Abraham journeyed he left behind him altars to God which served as reminders to future generations that God was in that place.

"As we travel through life we leave behind reminders or guide posts for our children and each succeeding generation. It is for us to decide whether these guide posts will be a blessing or a curse to others."

The Gettysburg college choir, under the direction of Prof. Parker P. Wagnild, sang "In Heaven Above," folk melody, with solo by Thomas Hunter; "Angelic Choir," Goldbeck; "To Thine O Lord Do I Put My Trust," Kallinnikoff, and "Beautiful Savior," Silesian folk song, with solo by Miss Martha Herman.

The Rev. W. R. Doyle, vicar of the Prince of Peace Episcopal church, gave the invocation and benediction. Ritualistic rites were conducted by the following who occupied offices: George Bushman, Warren T. Dunn, Sr., Hubert A. Gallagher, Elmer W. Warren, George E. Burgner, James S. Shenk and James R. ## New Process For Zinc Coating Steel

(Continued From Page 1)

Pittsburgh, Dec. 6 (AP)—The Carnegie-Illinois Steel corporation has unveiled a new continuous process for coating steel with zinc. About 300 tons of galvanized steel can be produced daily on the 500 foot line at the U. S. Steel corporation subsidiary's Irvin works. A similar lane for light gage material will be finished in a few months.

Vice President J. E. Loe said the new line produces "far better quality than the old type of hand sheet galvanizing method and at the same time automatically eliminates the need for further processes such as box annealing, sheet pickling and hand feeding."

Loe said the continuous method results in a more adherent coating of more uniform thickness. At the end of the line, galvanized steel strip is cut into sheets for such uses as roofs of railroad cars, culvert and drainage structures, storage tanks and railroad refrigerators.

The heavy gage line can coat cold reduced strip 20 to 54 inches wide and 11 to 18 gage in thickness. The machine, operating at from eight to 120 feet a minute, is fed coils of strip whose ends are welded together automatically.

Vernonia, Ore., Dec. 6 (AP)—An accidentally blocked exhaust pipe in an old car was blamed today for asphyxiating two 16-year old girls as they sat with their boy friends in a "lovers' lane" near here.

The girls—Bernedine King, daughter of the deputy city marshal, and Mary Lou Wolf—were found dead in the car, parked at the entrance of the old Vernonia cemetery, yesterday morning.

Their dates—Allen Jur

## AGED HUNTER'S BODY IS FOUND

DuBois, Pa., Dec. 6 (AP)—The body of a 76-year-old deer hunter missing since the season opened a week ago today was found yesterday by a woman who refused the \$1,000 reward offered only a few hours earlier.

The body of Ray H. Richards, Brookville contractor, was found half submerged in a swamp only a few miles from his hunting camp. It was discovered by Marion E. Brooks of Wexford, Pa., who was among scores of volunteers trying to find some trace of the veteran hunter.

The three rifle shots which signified the end of the intensive search were fired into the air by Ray H. Richards, Jr., son of the victim. He had offered the \$1,000 reward on Saturday night.

State police said the elderly man, who had hunted in the Clearfield-Elk county region the past 35 years, apparently had followed a deer and then suffered a heart attack. The lower part of his body was in the water.

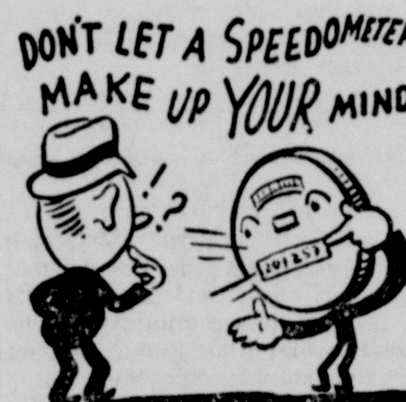

## Bill Welch Placed On All-Star Eleven

William Miller Welch, 3rd, son of Mr. and Mrs. William Miller Welch, Philadelphia, and grandson of Dr. and Mrs. Charles H. Huber, Carlisle street, has been named to the first All-Intercollegiate football team by the Philadelphia Inquirer.

Welch gained the honors for his outstanding play as a tackle for the Penn Charter eleven during the past season.

This evening members of the Intercollegiate team, All-Public league team, and All-Catholic league squad will be honored by the newspaper at the sixth annual Gold Football Award banquet at the Warwick hotel.

British Statesman Cecil John Rhodes went to Natal in 1870—the year diamonds were discovered in the Kimberly fields—and the next year struck it rich. Before he was 19 he was financially independent.
